Java Assignment 1

Code:

```java
 1  import java.io.*;
 2  public class Bird{
 3  public static int countTotalBirds(int rowNumber){
 4  int b=1;
 5  int bi=0;
 6  int total=0;
 7
 8  for(int i=0;i<rowNumber;i++){
 9  total=bi+b;
10  bi=b;
11  b=total;
12  }
13
14  return total;
15  }
16
17  public static void main(String args[]){
18
19  int r=Bird.countTotalBirds(5);
20  System.out.println("There are total " +r+" birds" );
21  }
22  }
23
```

Output:

```
There are total 8 birds
```
